

Project Title	Funding Partner	Location	Project Team
IoT-Enabled Solar Power and Digital Learning Hub for Improved Accessibility at a Motherless Baby Home in Nsukka	The Solid-State Circuits Society	Nigeria	Enugu State University of Science and Technology
Interactive Smart Pen and Pad for Learner with Dyslexia	The Solid-State Circuits Society	India	Anurag University
Safejacked: The Sentinel of Your Safety	The Solid-State Circuits Society	India	Sri Sairam Engineering College
STEM with Purpose: Engineering and Design of Robotics Kits for STEM Skills and Productive Socio-Community Projects	The Robotics and Automation Society	Bolivia	Universidad Mayor de San Andrés
Andino Hydro Resilience – Colombia	The Robotics and Automation Society	Colombia	Universidad Distrital Francisco José de Caldas
Active Lower-Limb Exoskeleton for the Rehabilitation of People with Motor Disabilities – Bolivia	The Robotics and Automation Society	Bolivia	Universidad Mayor de San Andrés WIE SB Affinity Group
Electric Microtractor with Semi-Automatic Navigation for the Technification and Sustainable Development of Garlic Crops – Jachuma – Bolivia	The Robotics and Automation Society	Bolivia	Universidad Mayor de San Andrés
FIRENET (Fire Identification and Response Network for Early Tracking) – India	The Instrumentation and Measurement Society	India	Rajkiya Engineering College Mainpuri
Low Power VLSI Based AI	The	India	SASTRA University

Chip for Onboard Real-Time Forest Fire Detection via Satellite Image Analysis	Instrumentation and Measurement Society		
Utilizing IOT to enhance crop health and food security among communities	The Instrumentation and Measurement Society	Uganda	Makerere University
Water Quality Enhancement and Microfluidics-based Microplastic Monitoring in Water bodies	The Instrumentation and Measurement Society	India	Rajalakshmi Engineering College SB
AI Driven Snake Robot for Real-Time Monitoring and Inspection of Underground Pipelines, Country Pakistan	The Instrumentation and Measurement Society	Pakistan	Mehran University Of Engineering & Technology, Jamshoro
Student-Led Open-Source Digital Twin for Hybrid Energy Systems in Indigenous Communities – Mexico	The Instrumentation and Measurement Society	Mexico	Tecnológico de Monterrey
Photovoltaic system for electrification of a rural elementary school in Tonantzintla, Mexico.	The Instrumentation and Measurement Society	Mexico	INAOE Puebla
Aural AI: Empowering Blind Community with Smart Object Detection to Enhance Safety and Prevent Fraud	The Computational Intelligence Society	Indonesia	Universitas Pendidikan Indonesia
An AI-Assisted Telemedicine Kiosk – India	The Computational Intelligence Society	India	Sri Sairam Engineering College

Coastal Fog Harvesting for Sustainable Freshwater Supply	onsemi	China	Zhejiang Ocean University
Towards Greener Agriculture: Intelligent Irrigation with Solar Panel Cooling and Self-Cleaning Solutions	onsemi	Malaysia	Universiti Malaysia Perlis
Smart Handheld Translator for Hearing and Speech Impaired	onsemi	India	SRM TRP TIRUCHIRAPALLI
Controlled interactive scratch pad for children with Autism Spectrum Disorder and Learning Disorder-Adaptive.	onsemi	India	SRM TRP Engineering College
Retino-Oculometric Dual-Layer System for Rapid Ocular Health Triage	onsemi	India	Sri Sairam Engineering College
SheShield: Empowering Women's Safety – India	onsemi	India	Shri Vishnu Engineering College for Women-SB
Empowering Independence: A Robotic Exoskeleton Solution for Cerebral Palsy-Affected Children- INDIA	onsemi	India	Kumaraguru College Of Tech
BreatheEase: Adaptive Oxygen Management and Monitoring System for Lung Failure Patients	onsemi	India	Saveetha
AI-based Early Screening and Diagnostic Aid System for Childhood Pneumonia via Cough Sound Analysis—China	onsemi	China	Zhejiang Ocean University
GauRaksha: Preventive Cattle Healthcare for Sustainable Dairy Farming in Saswad, District Pune, India	onsemi	India	Bharati Vidyapeeth College of Engineering

SoundScout: AI-Powered Smart Glasses with Haptic Feedback for Visually and Hearing-Impaired Individuals – India	onsemi	India	SRM TRP Engineering College
CardioSense – Affordable Precursor for Community Heart Health	onsemi	Malaysia	Taylor’s University
Anidasoo – An Inclusive Offline Learning Device for Visually Impaired Children – Ghana	Jon C. Taenzer Memorial Fund	Ghana	Ashesi University
Assistive, Community-Centered Smart System for Early Detection and Prevention of Diabetic Foot Ulcers	Jon C. Taenzer Memorial Fund	India	Shri Vishnu Engineering College for Women
EPICS – RPVI (Resources for People Visual Impairments)	Jon C. Taenzer Memorial Fund	USA	Purdue University
Reflecting Inclusivity: A Smart Mirror for Accessible Technology for All Abilities – Egypt	Jon C. Taenzer Memorial Fund	Egypt	The British University in Egypt
Personalized Communication Assistive Technologies for Children with Autism and Cerebral Palsy – India	Jon C. Taenzer Memorial Fund	India	Amrita Vishwa Vidyapeetham
Farm Ride – A Smart Hydraulic-Supported EV to Enhance Agricultural Mobility for Differently-Abled Individuals	Jon C. Taenzer Memorial Fund	India	SRM TRP Engineering College
Automated Screening tool for detecting Retinopathy of Prematurity (ROP) in fundus images using Explainable AI-India	IEEE Standards Association	India	Dr Vishwanath Karad MITWPU

Solar Photo Voltaic System Design and Installation at the Caserio Pancá Community Center	EPICS in IEEE General Funds	USA	The Ohio State University
Voices of Water and Earth: Inclusive Monitoring of Water and the School Garden in Misak Education	EPICS in IEEE General Funds	Colombia	Cauca University
Electronic Game Children Sets for Psychological Sustainable Development During Wartime – Ukraine	EPICS in IEEE General Funds	Ukraine	IEEE Ukraine Section
RIDER – Robotics for Inspection and Disasters in Enclosed Regions	EPICS in IEEE General Funds	USA	IEEE Orange County Section
Low-Cost Source Control of PFAS in Lithography Rinses – United States of America	EPICS in IEEE General Funds	USA	University of California San Diego
